REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: References of record, taken singly or in combination, fail to teach or fairly suggest the Faraday rotator of the present invention as now claimed in independent claim 6, in which the Faraday rotator comprises a roller-shaped magneto-optical crystal surrounded by a right circular hollow cylinder comprising a permanent magnetic material having axially magnetized field, the cylinder having magnets at both end faces thereof, each of the end face magnets having an aperture therethrough and arranged coaxially with the axis of symmetry of the crystal, wherein at least a region of one of the magnets at an end face is magnetized in a direction opposite to the direction of magnetization of a region of one of the magnets at another end face, both directions being perpendicular to the axis of symmetry.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Loha Ben whose telephone number is (571) 272-2323. The examiner can normally be reached on M-SAT, generally between 12:00 noon to 8:00 p.m.
